Contact: info@shirshekar.com

## **STUDIO DESCRIPTION**

Design brings engagement, sophistication, and civility. Studio Shirshekar brings a commitment to design. We have a clarity of vision and a uniquely tailored methodology for every client and context. By using an integrated approach to interior and exterior spaces, we focus on functionality, programming, and refined materiality. Design, combined with passion and perseverance, is our solution to optimal living, working and community.

## **Our projects include architectural and interior:**

- retail / commercial
- academic / institutional
- cultural
- civil
- residential

## **SKILLS REQUIRED**

1. High level AutoCAD proficiency to produce architectural drawings;
2. Proficiency in Revit is a plus;
3. High level proficiency in Sketchup;
4. Proficiency in all other standard software including Adobe InDesign, Illustrator, Photoshop and Microsoft Office;
5. Excellent verbal and written communication skills;
6. Demonstrate passion and enthusiasm for architecture and interior design.

## **TASKS MAY INCLUDE**

1. Being a key member of an architectural project team while assisting with the production of schematic, design development, and construction drawings;
2. Coordination engineering drawings;
3. Preparation of regulatory drawings (building permit / fire marshal);
4. Producing red line markups;
5. Participating in consultant coordination meetings and tasks;
6. Producing projected specific specifications;
7. High proficiency in architectural building detailing required for IFC sets.
