

January 2020

Murdock & Boyd Architects is currently seeking a junior or intermediate Architect for immediate placement in our firm located in the Uptown of Saint John, New Brunswick.

Murdock & Boyd Architects has been responsible for the design of, and has overseen construction of, many commercial, institutional and recreational projects in New Brunswick. In the past several years this includes the QPlex in Quispamsis; Saint John Regional YMCA; the Irving Oil Field House in Saint John; Seaside Park Elementary School in Saint John; Maplehurst Middle School in Moncton; the Trades Training Facility at NBCC in Saint John; and NB Liquor Retail Outlet in Saint John. We have also been involved in several renovation projects including the Saint John City Market tower, the refurbishment of the Brunswick Square Pedway, upgrades to the NB Museum, and the renovation of several student residences at the University of New Brunswick, Fredericton campus.

The ideal candidate for this position will be self-motivated, and able to develop solutions as a member of a team which consists of senior and junior Architects, Architectural Technologists and support staff. The successful applicant will be someone who can demonstrate an ability to work on various project types at multiple stages of design and construction in a dynamic setting.

The successful applicant will:

- Be a registered member of, or be qualified to become a registered member of, the Architects Association of New Brunswick.
- Have a minimum of 3 years of experience in a Canadian Architectural practice
- Have experience working on a broad range of project types, both in terms of program and size
- Be able to demonstrate ability to competently manage projects through all stages of design and construction

Candidate should have an understanding of the following:

- Use of AutoCad
- Design of institutional and commercial buildings
- Renovation and new construction
- National Building Code
- Building envelope assemblies

An ability to work in both English and French would be an asset, but not required, as is experience using BIM software (Revit in particular) and 3D Modelling software (SketchUp in particular).

Applications, including a letter of introduction, along with CV may be forwarded to [m.colpitts@architects.nb.ca](mailto:m.colpitts@architects.nb.ca)
